

Japan Credit Rating Agency, Ltd. (JCR) announces the following credit rating.

JCR's Rating Review of Five Expressway Companies

Issuer	Code	Long-term Issuer Rating		Outlook
Central Nippon Expressway Company Limited	-	<Affirmation>	AAA	Stable
East Nippon Expressway Company Limited	-	<Affirmation>	AAA	Stable
West Nippon Expressway Company Limited	-	<Affirmation>	AAA	Stable
Metropolitan Expressway Company Limited	-	<Affirmation>	AAA	Stable
Hanshin Expressway Company Limited	-	<Affirmation>	AAA	Stable

(See page 5 and beyond for details about ratings on individual bonds, etc.)

Rating Viewpoints

- (1) The five expressway companies (the “Companies”) are special companies that were established in October 2005 when four highway-related public corporations were split up and privatized. Based on agreements signed between the Companies and Japan Expressway Holding and Debt Repayment Agency (“JEHDRA”), they engage in the expressway business for the construction, management and operation of expressways as their core operations and also in the SA/PA business for the management and operation of service and parking areas and related businesses including the operation and management of parking lots utilizing expressway underpasses and other sites. Factors reflected in the rating include the fact that the Companies have strong legislative relationship with the national government and carry out politically extremely crucial operations and the fact that the expressway business scheme guarantees the certainty of debt repayment.
- (2) The Companies conduct the expressway business under a business scheme that separates operations from infrastructure to guarantee the efficient construction and management of necessary expressways and certainty of debt repayment. Expressway assets, once completed by the Companies under the agreement, are vested in JEHDRA in principle, and JEHDRA assumes the bonds and debts the Companies issued/borrowed for the construction (concomitant assumption). The Companies lease these expressway assets from JEHDRA, which then uses lease fees to repay debts. Given, among others, that expressway assets will be vested in the government and local public bodies as expressway administrators after the expressway toll collection period expires, i.e. after debts are repaid in full, it can be concluded that the Companies act on behalf of the government and local public bodies for infrastructure development projects. In August 2025, the government announced the results of its review of the achievements and challenges to date, along with the necessary future initiatives. The review positively evaluated such achievements as the steady repayment of interest-bearing debt in line with the objectives of privatization and the reliable development and management of expressways during both normal times and times of emergency and also pointed out the need to maintain the fundamental framework of the expressway business. As the importance of upgrading and enhancing expressways to accommodate technological innovations such as autonomous driving, in addition to renewal projects necessitated by aging infrastructure, is increasing, JCR assumes that the current business scheme is most likely to be maintained into the future.
- (3) JCR highly evaluates that there is a mechanism in the expressway business whereby business risks arising from changes in demand, etc. are prevented from materializing. The agreements between the Companies and JEHDRA stipulate, among others, the maximum amount of debts that can be transferred from the Companies to JEHDRA, estimate of expressway tolls to be collected by the Companies (estimated toll revenue), estimate of management costs of the Companies (estimated management costs) and lease fees that the Companies pay to JEHDRA for expressway assets so that the repayment of expressway debts is completed by the statutory expiration date of the toll collection period. In the event that the actual toll revenue fluctuates by more than 1% from the estimate,

the Companies are able to keep its impacts on their profits/losses within a certain range by adjusting lease fees for expressway assets (variable lease fee system). Moreover, in cases where the estimated toll revenue and management costs need to be revised due to changes in the external environment and so forth, the agreements will be amended to ensure that this does not affect the Companies' business operations. Recent amendments have been made in light of changes in the environment, including growth in labor costs and soaring prices of raw materials and energies.

- (4) The Companies all maintain operating income on a consolidated basis. As regards the expressway business, the completion costs of expressway assets to be handed over to JEHDRA will equal their completed value, and the Companies' estimated toll revenue is set to match the sum of estimated management costs and the lease fees paid to JEHDRA for expressway assets; therefore, the periodic balance of revenue and expenditures is basically balanced. However, under the variable lease fee system, if the actual toll revenue exceeds the estimated toll revenue, the Companies can make up to 1% of the estimated toll revenue as their own. While toll revenue continues to exceed the estimate, driven by an increase in the average daily traffic volume, management costs exceed the estimate due to inflation, resulting in a growing number of cases where the expressway business is operating at a loss. In related businesses, on the other hand, the core SA/PA business maintains a higher profit level than before for East, Central and West Nippon Expressway. Sales of food, beverages and merchandise are rising for all of the Companies thanks in part to growth in average spending per customer, and, given also that transportation demand remains robust, JCR assumes that the SA/PA business can continue steadily attaining a certain level of profits for a while longer. The parking lot business serves as the core of Metropolitan Expressway and Hanshin Expressway, and its profits are small but stable partly because of the large number of fixed-term parking contracts.
- (5) The Companies' individual equity capital as of March 31, 2026 was large enough to serve as a risk buffer. Despite the high level of debts for expressway construction relative to equity capital, there are no concerns about the Companies' financial soundness, considering that the debts will be transferred to JEHDRA after the completion of expressways. For East, Central and West Nippon Expressway, while financing requirements have increased due to the full-scale implementation of renewal projects, on top of the construction of the Metropolitan Inter-City Expressway, Shin Tomei Expressway and Shin-Meishin Expressway reaching its peak, financing capacity raises no concerns as the business scheme provides a high degree of certainty regarding debt repayment. Moreover, the Companies place the utmost importance on the certainty of repayment of expressway debts and are taking a cautious stance in the development of related businesses. Capital expenditures for related businesses are covered by cash flows from these businesses, and thus business risks are not likely to increase.

Rationale

Issuer: Central Nippon Expressway Company Limited

<Affirmation>

Long-term Issuer Rating: AAA
 Outlook: Stable
 Bonds: AAA

- (1) Central Nippon Expressway Company Limited ("Central Nippon Expressway") is a special company wholly owned by the national government with its business base covering areas with relatively high traffic volumes, stretching from the Tokyo metropolitan area to Chubu and Kinki regions. It constructs, operates and manages Japan's major expressways linking Tokyo to Nagoya and Osaka, including the Tomei, Chuo and Shin Tomei expressways. A 25-km section of the Tokai-Kanjo Expressway was opened to traffic in March 2025, extending the total length of expressways in operation to 2,208 km. The Shin Tomei and Tokai-Kanjo expressways account for approximately 70% of the 65 km of expressways under construction. Recently, the weight of projects related to safety and functional enhancement measures, including the conversion of temporary two-lane sections to four lanes and the maintenance, management and renewal of aging expressways, has been increasing.
- (2) As regards the consolidated results for the fiscal year ended March 2026 (FY2025), the expressway business recorded a loss of 6.0 billion yen. As toll revenue exceeded the estimate, 1% of the estimate was recognized as Central Nippon Expressway's own revenue; however, management costs were greater than the estimate due to the implementation of projects utilizing retained earnings, surging labor costs and material prices, etc. Meanwhile, as the SA/PA business attained 6.3 billion yen in profit, Central Nippon Expressway recorded an operating income of 0.1 billion yen on a company-wide basis. For FY2026, it anticipates a loss for the expressway business partly because of the

implementation of projects utilizing retained earnings, including road decarbonization measures, but nevertheless expects to record operating income by securing a certain level of profits in related businesses. Net assets as of March 31, 2026 were over 290 billion yen, which is reasonable against risks.

Issuer: East Nippon Expressway Company Limited

<Affirmation>

Long-term Issuer Rating: AAA
 Outlook: Stable
 Bonds: AAA

- (1) East Nippon Expressway Company Limited ("East Nippon Expressway") is a special company wholly owned by the national government with its business base covering wide areas stretching northward from the Kanto region, including Niigata Prefecture and a part of Nagano Prefecture, to Hokkaido. It constructs, operates and manages expressways including the Tohoku, Kan-Etsu and Joban expressways. As of March 31, 2026, the total length of expressways in operation was the longest among expressway companies at 3,943 km. Recently, the weight of projects related to safety and functional enhancement measures, including the conversion of temporary two-lane sections to four lanes and the maintenance, management and renewal of aging expressways, has been increasing. The Tokyo Outer Ring Road and Metropolitan Inter-City Expressway account for 50% of the 85 km of expressways under construction. As regards the Tokyo Outer Ring Road, no timeline has yet been established for the resumption of construction in the section affected by the ground subsidence incident that occurred during the shield tunneling work.
- (2) As regards the consolidated results for FY2025, the expressway business recorded 4.0 billion yen in operating loss. As toll revenue exceeded the estimate, 1% of the estimate was recognized as East Nippon Expressway's own revenue; however, management costs were greater than the estimate due to surging labor costs and material prices, etc. Meanwhile, as the SA/PA business attained 3.8 billion yen in profit, East Nippon Expressway recorded an operating income of 0.5 billion yen on a company-wide basis. For FY2026, it anticipates a loss for the expressway business partly because of the implementation of projects utilizing retained earnings, including road decarbonization measures, but nevertheless expects to record operating income by securing a certain level of profits in related businesses. Net assets as of March 31, 2026 were over 290 billion yen, which is reasonable against risks.

Issuer: West Nippon Expressway Company Limited

<Affirmation>

Long-term Issuer Rating: AAA
 Outlook: Stable
 Bonds: AAA

- (1) West Nippon Expressway Company Limited ("West Nippon Expressway") is a special company wholly owned by the national government with its business base covering wide areas stretching from the Kinki region to Chugoku, Shikoku, Kyushu and Okinawa regions. It constructs, operates and manages expressways including the Meishin, Chugoku and Kyushu expressways. As of March 31, 2026, the total length of expressways in operation reached 3,625 km. The length of expressways under construction is 72 km, extended by 16 km as a result of a new toll road project added in April 2026, and the Shin-Meishin Expressway now accounts for 50% of the total. Recently, the weight of projects related to safety and functional enhancement measures, including the conversion of temporary two-lane sections to four lanes and the maintenance, management and renewal of aging expressways, has been increasing.
- (2) As regards the consolidated results for FY2025, the expressway business recorded a loss of 5.0 billion yen. As toll revenue exceeded the estimate, 1% of the estimate was recognized as West Nippon Expressway's own revenue; however, management costs were greater than the estimate due to surging labor costs and material prices, etc. Meanwhile, as the SA/PA business attained 5.8 billion yen in profit, West Nippon Expressway recorded an operating income of 0.8 billion yen on a company-wide basis. For FY2026, despite the plan to implement projects utilizing retained earnings, including road decarbonization measures, West Nippon Expressway expects to record operating income by securing a certain level of profits in related businesses. Net assets as of March 31, 2026 were over 280 billion yen, which is reasonable against risks.

Issuer: Metropolitan Expressway Company Limited

<Affirmation>

Long-term Issuer Rating: AAA
 Outlook: Stable
 Bonds: AAA

- (1) Metropolitan Expressway Company Limited ("Metropolitan Expressway") is a special company owned by the national government holding a majority of voting rights and also by Tokyo Metropolis, Kanagawa Prefecture, Saitama Prefecture, Chiba Prefecture, Yokohama City and Kawasaki City. It is the main body responsible for the construction, management and operation of the Metropolitan Expressway. The Metropolitan Expressway as a motorway is classified as an "urban expressway" that constitutes one network in its own right. As of March 31, 2026, the total length of the expressway network in operation reached 327 km. The expressway under construction is the Shin-Omiya Ageo Road, which is 8 km in length, and the project is being undertaken jointly with the national government. Metropolitan Expressway has many structures such as elevated bridges and tunnels, and 50% of all routes are over 40 years old. Urgent actions to improve the conditions of aging structures are thus required, and efforts for renewal projects are particularly important.
- (2) As regards the consolidated results for FY2025, the expressway business recorded a loss of 1.5 billion yen. Even though Metropolitan Expressway recognized the amount by which toll revenue exceeded the estimate as its own revenue, management costs were greater than the estimate due to the implementation of projects utilizing retained earnings, surging labor costs and material prices, etc. Meanwhile, partly because profits from related businesses centering on parking lot have been staying steadily at around 1.5 billion yen, Metropolitan Expressway secured a modest operating income on a company-wide basis. For FY2026, too, it anticipates a loss for the expressway business partly because of the implementation of projects utilizing retained earnings but nevertheless expects to record operating income by securing a certain level of profits in related businesses. Net assets as of March 31, 2026 were over 80 billion yen, remaining reasonable against risks.

Issuer: Hanshin Expressway Company Limited

<Affirmation>

Long-term Issuer Rating: AAA
 Outlook: Stable
 Bonds: AAA

- (1) Hanshin Expressway Company Limited ("Hanshin Expressway") is a special company owned by the national government holding a majority of voting rights and also by Osaka Prefecture, Osaka City, Hyogo Prefecture, Kobe City, Kyoto Prefecture and Kyoto City. It is the main body responsible for the construction, management and operation of the Hanshin Expressway. The Hanshin Expressway as a motorway is classified as an "urban expressway" that constitutes one network in its own right. As of March 31, 2026, the total length of the expressway network in operation reached 258 km. Expressways under construction stretching 29 km in total involve four projects, which are being undertaken jointly with the national government or local public bodies. The Hanshin Expressway has many structures such as elevated bridges and tunnels, and 50% of all routes are over 40 years old. Urgent actions to improve the conditions of aging structures are thus required, and efforts for renewal projects are particularly important.
- (2) As regards the consolidated results for FY2025, the expressway business recorded an income of 0.9 billion yen. Even though management costs were greater than the estimate due to the implementation of projects utilizing retained earnings, surging labor costs and material prices, etc., toll revenue exceeded the estimate, and Hanshin Expressway recognized 1% of the estimate as its own revenue. Moreover, partly because profits from related businesses centering on parking lot have been staying steadily at around 1.0 billion yen, Hanshin Expressway recorded 1.7 billion yen in operating income on a company-wide basis. For FY2026, it anticipates a loss for the expressway business partly because of the implementation of projects utilizing retained earnings but nevertheless expects to record modest operating income by securing a certain level of profits in related businesses. Net assets as of March 31, 2026 came close to 70 billion yen, remaining reasonable against risks.

Rating Assignment Date: July 31, 2026

The assumptions for the credit ratings and the definitions of the rating symbols are published as "Types of Credit Ratings and Definitions of Rating Symbols" (January 6, 2014) in Information about JCR Ratings on JCR's website (<https://www.jcr.co.jp/en/>).

Outline of the rating methodology is shown as "FILP Agencies, etc." (May 29, 2020) in Information about JCR Ratings on JCR's website (<https://www.jcr.co.jp/en/>).

The rating stakeholder participated in the rating process of the aforementioned credit ratings.

Japan Credit Rating Agency, Ltd.

Jiji Press Building, 5-15-8 Ginza, Chuo-ku, Tokyo 104-0061, Japan

Information herein has been obtained by JCR from the issuers and other sources believed to be accurate and reliable. However, because of the possibility of human or mechanical error as well as other factors, JCR makes no representation or warranty, express or implied, as to accuracy, results, adequacy, timeliness, completeness or merchantability, or fitness for any particular purpose, with respect to any such information, and is not responsible for any errors or omissions, or for results obtained from the use of such information. Under no circumstances will JCR be liable for any special, indirect, incidental or consequential damages of any kind caused by the use of any such information, including but not limited to, lost opportunity or lost money, whether in contract, tort, strict liability or otherwise, and whether such damages are foreseeable or unforeseeable. JCR's ratings and credit assessments are statements of JCR's current and comprehensive opinion regarding redemption possibility, etc. of financial obligations assumed by the issuers or financial products, and not statements of opinion regarding any risk other than credit risk, such as market liquidity risk or price fluctuation risk. JCR's ratings and credit assessments are statements of opinion, and not statements of fact as to credit risk decisions or recommendations regarding decisions to purchase, sell or hold any securities such as individual bonds or commercial paper. The ratings and credit assessments may be changed, suspended or withdrawn as a result of changes in or unavailability of information as well as other factors. JCR receives a rating fee paid by issuers for conducting rating services in principle. JCR retains all rights pertaining to this document, including JCR's rating data. Any reproduction, adaptation, alteration, etc. of this document, including such rating data, is prohibited, whether or not wholly or partly, without prior consent of JCR.

JCR is registered as a "Nationally Recognized Statistical Rating Organization" with the U.S. Securities and Exchange Commission with respect to the following four classes. (1) Financial institutions, brokers and dealers, (2) Insurance Companies, (3) Corporate Issuers, (4) Issuers of government securities, municipal securities and foreign government securities.

JCR publishes its press releases regarding the rating actions both in Japanese and in English on the same day. In case that it takes time to translate rating rationale, JCR may publicize the summary version, which will be replaced by the full translated version within three business days. (Regarding Structured Finance products, JCR only publicize the summary version in English.)

INFORMATION DISCLOSURE FORM

Japan Credit Rating Agency, Ltd.

Disclosure Required by Paragraph (a)(1)(ii) of Rule 17g-7

Issuer:	Central Nippon Expressway Company Limited East Nippon Expressway Company Limited West Nippon Expressway Company Limited Metropolitan Expressway Company Limited Hanshin Expressway Company Limited
Rating Publication Date:	August 5, 2026

1

The Symbol, Number, or Score in the Rating Scale used to Denote Credit Rating Categories and Notches and, the Identity of the Obligor or the Identity and a Description of the Security or Money Market Instrument as Required by Paragraph (a)(1)(ii)(A) of Rule 17g-7

- Please see the news release. If the credit rating is a private rating, please see the report for private rating.

2

The version of the procedure or methodology used to determine the credit rating; as Required by Paragraph (a)(1)(ii)(B) of Rule 17g-7

- Please see the news release. If the credit rating is a private rating, please see the report for private rating.

3

The Main Assumptions and Principles used in Constructing the Procedures and Methodologies used to Determine the Credit Rating as Required by Paragraph (a)(1)(ii)(C) of Rule 17g-7

- The credit rating methodology assumes, in principle, to be applied to assess the likelihood of a given debt payment in light of its issuer's condition and business environment, etc. in the relevant future. There is certain limitation, however, in the time horizon that the rating foresees.
- The credit rating methodology assumes, in principle, that the factors posted in the below are particularly important for such likelihood to be determined, and that the rating determination is made by evaluating each of them not only quantitatively but also employing qualitative analyses.

A) Legal Protection and Support Provided by the Government

The likelihood of a given debt payment is highly conditional to the issuer's legal protection provided by the government, personnel and capital relationship with the government, importance in the government's policy, credit enhancement, and other forms of the government's supporting policy, framework and the strength thereof.

B) Business Bases

The likelihood of a given debt payment is highly conditional to its issuer's business bases - how they can be maintained/ expanded into the future and thereby secure earnings and cash flows in adequacy and in a sustainable way.

C) Financial Grounds and Asset Quality

The likelihood of debt payment is highly dependent on the degree of the issuer's indebtedness and loss absorption capacity in terms of equity capital. Also notable is that a financial institution might see a significant loss of financial grounds as a result of changes in value of the assets under its possession.

D) Liquidity Positions

The likelihood of debt payment is highly dependent on the adequacy of the issuer's cash and other sources of repayment (liquidity positions).

E) Order of Seniority in Debt Payment

The likelihood of debt payment can be different between given debts of the same issuer. The likelihood of debt payment for an individual debt is dependent on the issuer's discretion, and/ or its rank relative to other debts of the same issuer in the order of seniority in principal/ interest payment which is determined by design as financial product or by laws, etc.

4 The Potential Limitations of the Credit Rating as Required by Paragraph (a)(1)(ii)(D) of Rule 17g-7

- The credit rating herewith presented by JCR is its summary opinion with regard to the likelihood of given debt payment and hence not necessarily a perfect representation of such likelihood. The credit rating is not intended to estimate the probability of default or the loss on given default, either.
- The objective of the credit rating herewith presented does not include any concerns other than the likelihood of debt payment, such as risks of price changes, market liquidity, etc.
- The credit rating herewith presented is necessary to be reviewed along with possible changes of the issuer of rated objects in its business performance and/ or circumstances which include regulatory environment, and hence subject to possible alteration.

5 Information on the Uncertainty of the Credit Rating as Required by Paragraph (a)(1)(ii)(E) of Rule 17g-7

- The information used for the determination of credit rating as herewith presented is obtained by JCR from the issuer of rated objects and other sources that JCR trusts in terms of accuracy and reliability but possibly contains errors due to human, non-human or other causes. Consequently, the credit rating determined on the grounds of such information does not constitute, explicitly or implicitly, any representation or warrant of JCR on the information itself or any consequences of its use in terms of accuracy, relevance, timeliness, wholeness, market value, or usefulness for any specific purposes.

6 Use of Due Diligence Services of a Third Party in Taking the Rating Action as Required by Paragraph (a)(1)(ii)(F) of Rule 17g-7

- There is no use of any third-party due diligence service in the determination of the credit rating herewith presented.

7 Use of Servicer or Remittance Reports to Conduct Surveillance of the Credit Rating Required by Paragraph (a)(1)(ii)(G) of Rule 17g-7

- There is no use of any servicer or remittance report to conduct surveillance of the credit rating herewith presented.

8 The Types of Data Relied Upon for the Purpose of Determining the Credit Rating as Required by Paragraph (a)(1)(ii)(H) of Rule 17g-7

- The information posted in the below, which includes data, is used for the determination of the credit rating herewith presented.

A) Audited financial statements presented by the rating stakeholders

B) Explanations of business performance, management plans, etc. presented by the rating stakeholders

9 Overall assessment of the Quality of Information Available and Considered in Determining the Credit Rating as Required by Paragraph (a)(1)(ii)(I) of Rule 17g-7

- JCR holds its basic policies for securing the quality of information as a base of due diligence for the determination of credit ratings. The information used as a base for the determination of credit rating herewith presented satisfies such policies, which include the audit by an independent auditor, the publication by the issuer or some independent media or, otherwise, JCR analyst's scrutiny, etc.
- JCR sees no particular weakness in the quality of information used for the determination of the credit rating herewith presented as compared to the information used in other cases of the credit rating for comparable issuers or ratable objects.
- If the credit rating is an Indication, please see the report for Indication.

10 Information Relating to Conflicts of Interest as Required by Paragraph (a)(1)(ii)(J) of Rule 17g-7

- JCR receives payment of compensation for the determination of the credit rating herewith presented from either one of those parties who are issuer, underwriter, depositor or sponsor.
- JCR did not receive in the last fiscal year in the past payment of compensation from the same party for any kind of JCR's service other than the determination of public or private credit rating, such as one in the ancillary business.

11 Explanation or Measure of the Potential Volatility of the Credit Rating as Required by Paragraph (a)(1)(ii)(K) of Rule 17g-7

A) Legal Protection and Support Provided by the Government

The credit rating is subject to alteration if there is a change in the issuer's legal support by the government, personnel or capital relationship with the government, importance in the government's policy, credit enhancement and other forms of the government's supporting policy, framework and the strength thereof. The resultant alteration of the credit rating is usually by a notch, with possibility of a few notches if and when the change is large.

B) Business Bases

The credit rating is subject to alteration if there is improvement or deterioration of the issuer's business bases, since its revenue, etc. may improve or deteriorate by the change in its business management policies, clients' preferences, competitive situation, or a technological innovation. The resultant alteration of the credit rating is usually by a notch, with possibility of a few notches if and when the change in the business bases is large.

C) Financial Grounds and Asset Quality

The credit rating is subject to alteration if the issuer increases/ decreases its debt/ capital or vice versa and thereby makes its individual debt payment liability less or more bearable and its loss absorption capacity into the future decreased or increased. Also, the changes in the quality of asset under the issuer's holding may affect the credit rating, since such changes could raise or lower the likelihood of future loss of the issuer's financial grounds. The resultant alteration of the credit rating is usually by a notch, with possibility of a few notches if and when the change in the financial grounds and/ or asset quality is large.

D) Liquidity Positions

The credit rating is subject to alteration if there is a change in the issuer's financial management policy or in the relations with fund procurement sources and the change thereby makes its liquidity positions improve or deteriorate. The resultant alteration of the credit rating is usually by a notch, with possibility of a few notches if and when the change is large.

E) Creditworthiness of the Government, etc. that Constitute the Framework of Credit Enhancement

The credit rating is subject to alteration if there is a change in the creditworthiness of the government, etc. that constitute the framework of credit enhancement. The resultant alteration of the credit rating is usually a notch, with possibility of a few notches if and when the change on such framework is exceptionally large.

F) Various Events

The credit rating is subject to alteration on occurrence of various events, such as change in the issuer's major shareholders, M&A and other organizational change, accident, violation of the law, litigation, legal/ regulatory change, natural disaster, etc., which are unforeseeable at the time when the credit rating is determined, causing a significant change on the issuer's business bases, financial grounds, etc. The resultant alteration of the credit rating could be by a notch but more often than not as much as a few notches.

12

Information on the Content of the Credit Rating, Including the Historical Performance of the Credit Rating and the Expected Probability of Default and the Expected Loss in the Event of Default as Required by Paragraph (a)(1)(ii)(L) of Rule 17g-7

- Historical records of the credit rating herewith presented are posted in the end of this paper.
- The credit rating herewith presented by JCR is its summary opinion with regard to the likelihood of given debt payment and hence not necessarily a perfect representation of such likelihood. The credit rating is not intended to estimate the probability of default or the loss on given default, either.
- Facts of the probability of default are posted as Form NRSRO Exhibit 1 on the JCR website under the URL:

<https://www.jcr.co.jp/en/service/company/regu/nrsro/>

13

Information on the Sensitivity of the Credit Rating to Assumptions Made as Required by Paragraph (a)(1)(ii)(M) of Rule 17g-7

A) Legal Protection and Government Support

The credit rating herewith presented could be changed if and when the assumptions made at the time of its determination turn out to be inaccurate with regard to the issuer's legal protection provided by the government, personnel and capital relationship with the government, importance in the government's policy, credit enhancement and other forms of the government's supporting policy, framework and the strength thereof. The resultant change of the credit rating is most likely by one

notch, as JCR stipulates, but possibly as much as a few notches if the change in the government's supporting policy is significant.

B) Business Bases

The credit rating herewith presented could be changed if and when the assumptions made at the time of its determination turn out to be inaccurate with regard to the issuer's business bases and powers of earning or cash flow generation, etc. The resultant change of the credit rating is most likely by a notch, as JCR speculates, but possibly as much as a few notches if the development is rapid in improvement or deterioration of the issuer's business bases on some drastic change in the operational environments, etc.

C) Financial Grounds and Asset Quality

The credit rating herewith presented could be changed if and when the assumptions made at the time of its determination turn out to be inaccurate with regard to the issuer's financial grounds and asset quality. The resultant change of the credit rating is most likely by a notch, as JCR speculates, but possibly as much as a few notches if the development is rapid in improvement or deterioration of the issuer's financial grounds and/ or asset quality on some drastic change in its business bases.

D) Liquidity Risks

The credit rating herewith presented could be changed if and when the assumptions made at the time of its determination turn out to be inaccurate with regard to the issuer's liquidity positions. The resultant change of the credit rating is most likely by a notch, as JCR speculates, but possibly as much as a few notches if the development is rapid in improvement or deterioration of the issuer's liquidity positions on some drastic change in its financial management policy or relations with fund procurement sources, etc.

E) Creditworthiness of the Government, etc. that Constitute the Framework of Credit Enhancement

The credit rating herewith presented could be changed if and when the assumptions made at the time of its determination turn out to be inaccurate with regard to the creditworthiness of the government, etc. that constitute the framework of credit enhancement. JCR assumes the resultant change of the credit rating is most likely by a notch. The change could be as much as a few notches should the creditworthiness of said government, etc. change so greatly.

14

Information on the Representations, Warranties, and Enforcement Mechanisms of an Asset-backed Security as Required by Paragraph (a)(1)(ii)(N) of rule 17g-7

- The credit rating herewith presented is not for an ABS product, and hence no relevant issue.

Attestation Required by Paragraph (a)(1)(iii) of Rule 17g-7

I, Takeshi Rikawa, have responsibility to this Rating Action and to the best of my knowledge:

- A) No part of the credit rating was influenced by any other business activities.
- B) The credit rating was based solely upon the merits of the obligor, security, or money market instrument being rated.
- C) The credit rating was an independent evaluation of the credit risk of the obligor, security, or money market instrument.

里川 武

Takeshi Rikawa
